

EMF Protection

Rejuvenizers address the spiritual effects of EMFs. The Personal Rejuvenizer® helps repair subtle damages to your energy field from past exposure to EMFs and the various high-tech frequencies. The subtle energy field is your blueprint for the physical. It is the field that psychics 'read' when they are looking at potential physical diseases that are in the process of manifesting.

These frequencies will increase the amount of electromagnetic fields and lower the "Life Energy Level" or life force of whatever space they permeate by 75% to 85%. What this means is that your home or place of business will feel energetically "thick" and draining. It will be increasingly harder to feel alive and well in that space. People will feel more tired, have less motivation, and the incidence of physical illness-from headaches to immune system disorders-will increase.

EMF Solution – Rejuvenizers

Rejuvenizers creates a matrix of higher dimensional frequencies around the physical and subtle bodies, specifically designed to address and combat all the different frequencies in today's high-tech world.

The architectural platform and design of Personal Rejuvenizers® allows seamless upgrades so that the Rejuvenizer® purchased at anytime is encoded with responses to current environmental energy challenges. Because of the dynamic nature of the world we live in, Rejuvenizers are often updated telepathically for all users. All upgrades are included in the initial cost of the product, providing a lifetime of healing and protection. Rejuvenizer wearers do not need to concern themselves with buying another 'newer and more improved' model year after year because upgrades to meet the continually complex EMF radiation soup are being done often, for all Rejuvenizers.
